

Technical data sheet

Duroplastic, kneadable sealing putty (white), plastic based for sanitary installations

Vorteile u. Eigenschaften

- duroplastic
- smooth
- economical and quick to process
- does not become brittle, clean work
- good adhesion
- indefinitely storable
- easily glued, kneadable
- can also be used as a leveling compound
- particularly suitable for drain fittings
- Temperature range: -10°C to + 100°C
- do not use on marble or other natural stones
- can also be used for noise decoupling
- suitable for cold and warm water
- based on plastic

Application areas

Is particularly suitable for the use of drain fittings in e.g. washstands, bathtubs, sinks and is suitable for cold and hot water. Can also be used as a leveling compound for installing sanitary ceramics. Can also be used for sound decoupling.

Tests and Approvals

./.

Application

With clean hands, model the "plasticine" into the desired shape. The items to be sealed should be free of dirt or solid residue. Do not use on objects made of marble or other natural stone! Does not seal under pressure.

Shelf life and storage

Unlimited shelf life when stored in a dry and dark place at normal humidity and room temperature

Order-number, Article and packaging units

Order-no.	Article	PU
06001	250 g can	24
06002	500 g can	18
06003	1 kg can	12
06004	5 kg bucket	1

Notice

All information and recommendations contained in this technical data sheet do not represent guaranteed properties. They are based on our research results and experience. However, they are non-binding as we are not responsible for compliance with the processing conditions may be, since we do not know the special application conditions at the user.

A guarantee can only be given for the consistently high quality of our products. We recommend that you conduct sufficient tests to determine whether the specified product has the properties you want. A claim from this is excluded. The processor bears sole responsibility for incorrect or inappropriate use.
